

```
1 // This program will make vairables and assign numbers to them
2 // then display them to the screen
3 #include <stdio.h>
4
5 int main(void)
6 {
7     // Declare a variable x as an integer
8     int x;
9
10    // Assign a value to x
11    x = 0;
12
13    // Print the current value of x
14    printf("x is %i\n", x);
15 }
```
