

```
1  #include <cs50.h>
2  #include <stdio.h>
3
4  int main(void)
5  {
6      // Get two numbers from the user
7      float x = get_float("Number: ");
8      float y = get_float("Another number: ");
9
10     // Little arithmetic
11     printf("%.3f divided by %.3f is %.3f\n", x, y, x / y);
12 }
```
