```c
1   // Print each character as an uppcase character
2   #include <cs50.h>
3   #include <ctype.h>
4   #include <stdio.h>
5   #include <string.h>
6
7   int main(void)
8   {
9       // Get string from user
10      string s = get_string("Input: ");
11
12      // Prepare for output
13      printf("Output: ");
14
15      // For each char in string
16      for (int i = 0; i < strlen(s); i++)
17      {
18          // Print as upper
19          printf("%c", toupper(s[i]));
20      }
21      printf("\n");
22  }
```
